SKILLS

- **Languages**: C, C++, Java
- **Frameworks**: HTML, CSS, Bootstrap, NodeJs, React
- **Tools/Platforms**: AWS (EC2, S3, VPC, RDS), MySQL, MongoDB, Git
- **Cloud Skills:** Cloud Fundamentals, Virtualization, IAM, Networking (VPC/Subnets), Storage (S3/EBS)
- **Soft Skills**: Problem-Solving, Team Work, Adaptability, Collaboration

PROJECTS

Earbuds Tracker | Lost and Found Tracking System (Java + Web Version) | **GitHub** Jun' 25

- Built a Lost-and-Found Earbuds Tracker to simplify reporting, searching, and managing misplaced items.
- Implemented the system using Java (OOP) with HashMap and PriorityQueue for efficient search, and created a web version using HTML, CSS, JavaScript, and LocalStorage for data persistence.
- Delivered a workflow with unique ID and timestamp generation, real-time status updates, and tracking of recent report, improving speed, accuracy, and overall user experience.

Tech Stack: Java, Hash Map, Priority Queue, UUID, HTML, CSS, JavaScript, Local Storage

Home Energy Saver | Java | **GitHub** Dec' 24

- Designed a Home Energy Saver system to monitor and reduce unnecessary household electricity usage.
- Created a Java application using OOP concepts to track appliance usage, estimate energy consumption, and offer energy-efficiency tips.
- Helped identify high-consumption appliances, improved overall energy efficiency, and provided actionable insights for reducing electricity costs.

Tech Stack: Java, OOP, CSS, JavaScript, Database Integration, Real email/password authentication, Restful API endpoints

TRAINING

Certificate of Merit for completing | CodeSmart | **Link** Jun' 25

- Completed an intensive summer training program on foundational programming concepts and data structures using C, C++, Java, strengthening problem-solving and logical thinking.
- Gained hands-on experience in implementing core data structures such as arrays, linked lists, stacks, queues, trees, and graphs through practical coding exercises.
- Earned a certificate with 75%, demonstrating a strong understanding of programming fundamentals and the ability to apply data-structure techniques effectively.

CERTIFICATES

- AWS Academy Graduate – Cloud Architecting (Training Badge) | AWS Academy | **Link** Feb' 26
- Introduction to Internet of Things (Elite Certification) | NPTEL (IIT Kharagpur) | **Link** Oct' 25
- Oracle Cloud Infrastructure 2025 Certified Multi-Cloud Architect Professional | Oracle | **Link** Sep' 25
- Build Generative AI and Solution with no Code | Infosys | **Link** Aug' 25

ACHIEVEMENTS

- Completed 4 months of daily coding practice, solving 250+ LeetCode problems and significantly strengthening algorithmic skills.
- Participated InnovateX , a 24-hour Hackathon organized by Student Organization Pentaomnia at Lovely Professional University.
- Qualified through three competitive rounds in InnovateX 24 hour Hackathon hosted by Pentaomnia at Lovely Professional University

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.7** Aug' 23- Present

Sir Ganesh Dutta Memorial Patna, Bihar
Intermediate; **Percentage: 68** Aug' 21- Mar' 22

M.S Memorial Academy Patna, Bihar
Matriculation; **Percentage: 60** Aug' 19- Mar '20
